

Pacific IngeniumSM Inc. Releases Android App

Pacific Ingenium releases Android app to help users control volume based on a schedule

MINNEAPOLIS – Jan. 31st, 2011 – Pacific Ingenium, Inc. has released Volume Anytime that will allow users to set the volume on their Android phone according to their daily or weekly schedule. When their schedule unexpectedly changes, the user can quickly adjust the volume using an intuitive clock interface to override the schedule. The users experience a productivity gain and increased convenience when the volume automatically adjusts itself based on time.

This is the first of two apps that Pacific Ingenium plans to release that will help users gain better control of their Android phone volume. The next app will allow users to automatically change the volume based on location. This will eliminate interruptions during those required silent times at locations like church, work, or school that don't always follow a planned schedule. For more details, visit <http://www.pacificingenium.com/mobileapps.aspx>.

Building mobile apps fits into Pacific Ingenium's short and long term strategy to integrate frontend and backend technology with the latest mobile technology. The learned techniques and process from building this app will greatly assist clients of Pacific Ingenium that have a need to build Android apps.

About Pacific Ingenium, Inc.

Pacific Ingenium, Inc. helps customers increase their ROI on software products that they want to develop using Microsoft technologies like Silverlight, .Net, and SQL Server. In order to commoditize the programming, they provide highly skilled certified professionals on site for analysis and design while sending the programming off shore. Development costs can be reduced by 50% with increased quality by staffing projects with Microsoft Certified Professionals in China. Pacific Ingenium has over 5 years of experience with offshore development. They have learned what causes projects to fail or succeed. With this experience, they created a unique process that will save companies money while delivering outstanding service and quality.

Pacific Ingenium is headquartered in Minneapolis and has an offshore campus in Nantong, P.R. China. For more details about Pacific Ingenium, call 612-293-9393 or visit their website at <http://www.pacificingenium.com>.
